### Mini and portable

Xiaomi Portable Bluetooth speaker has a small body, which can be carried in the bag or easily held in the hand.

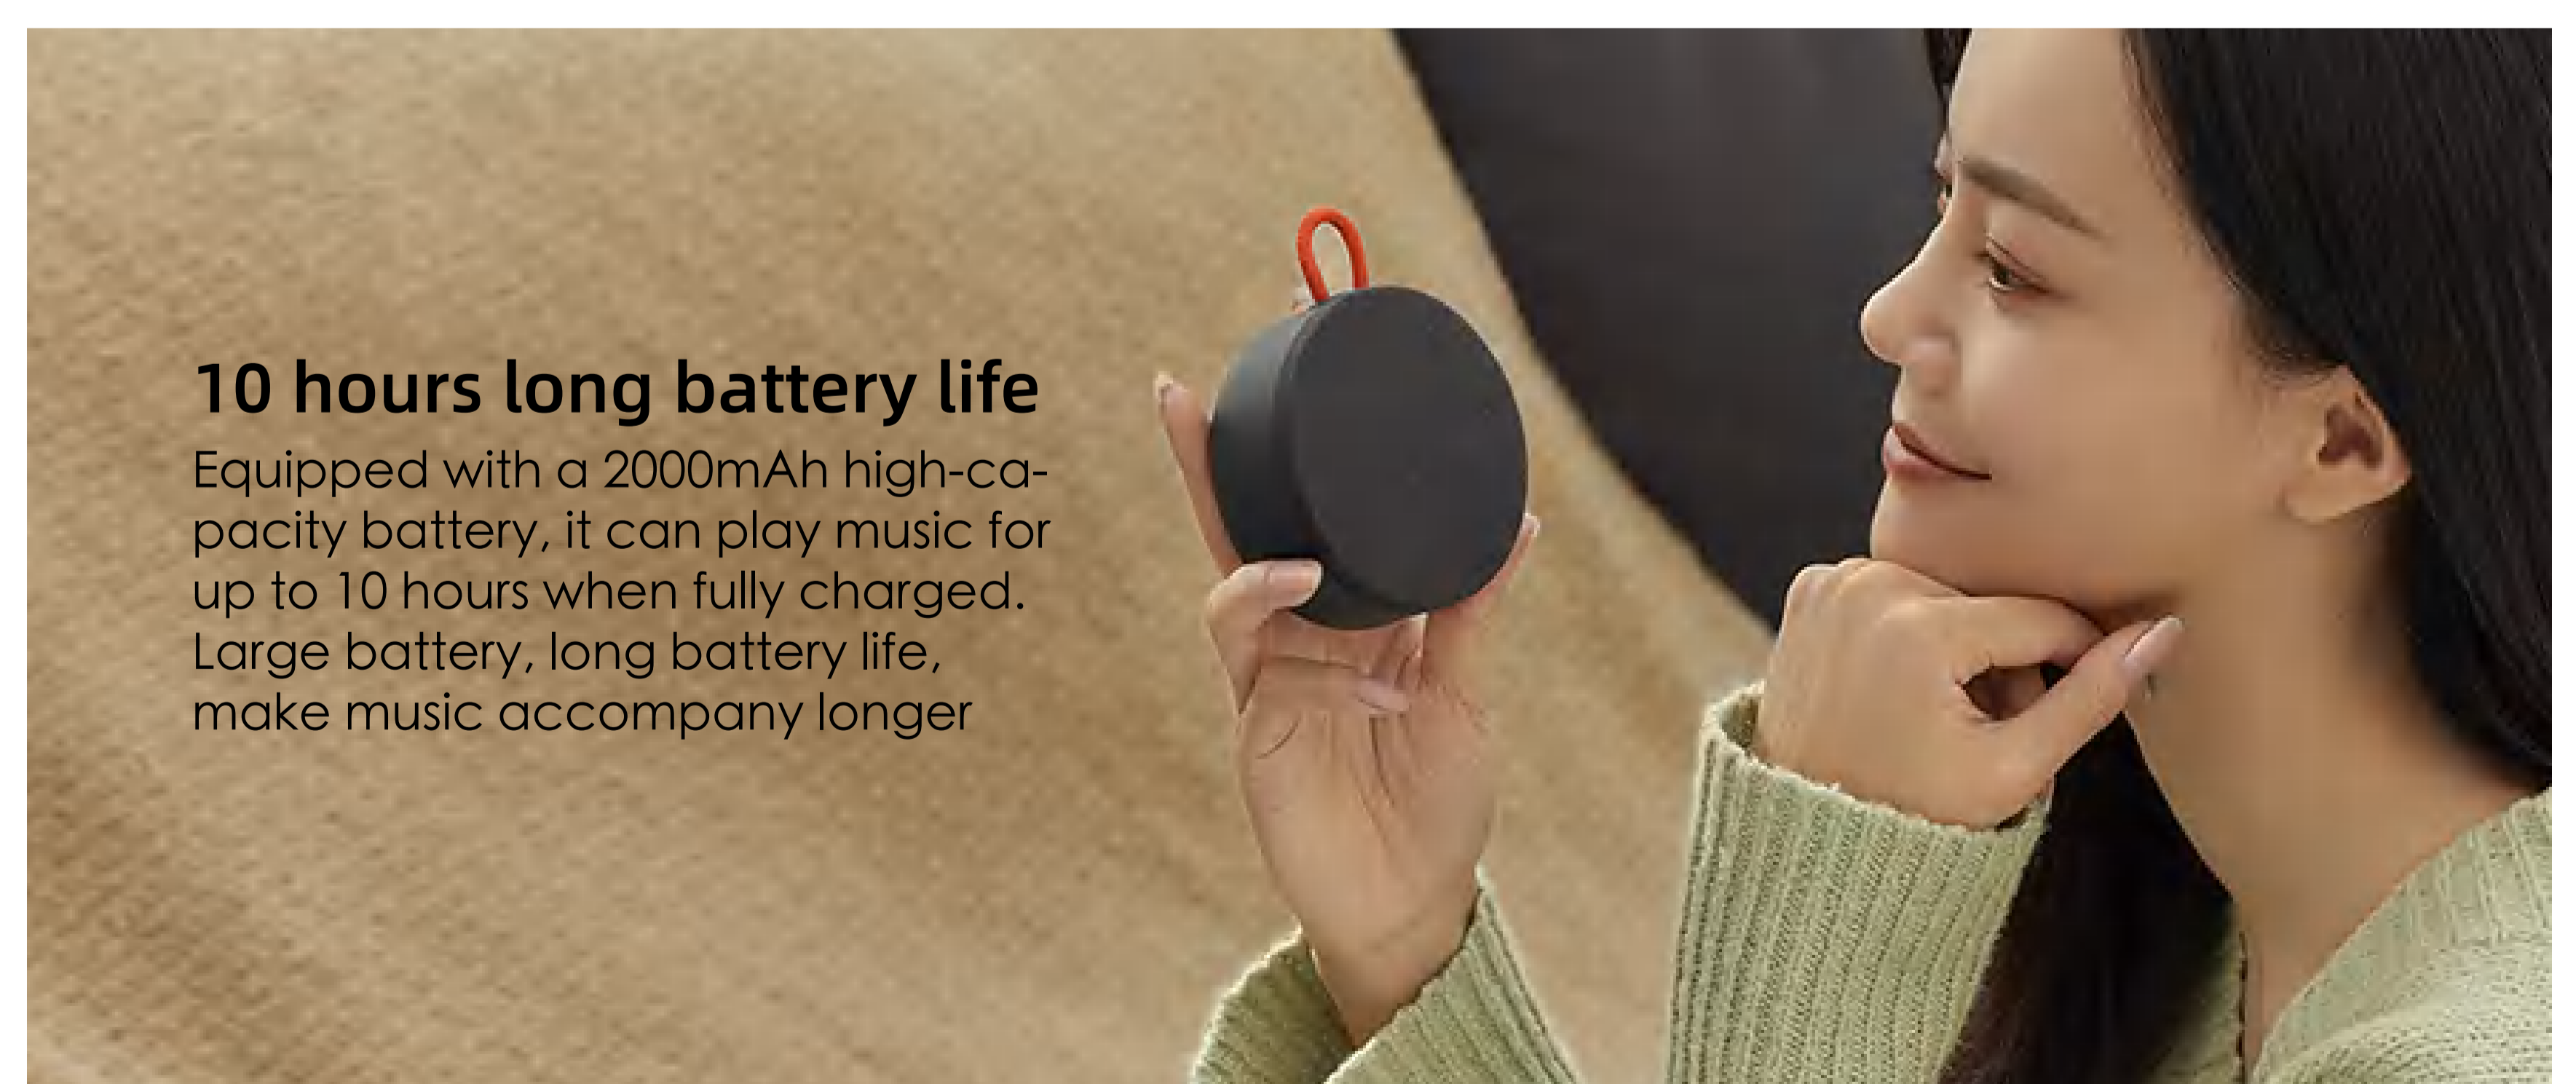

### IP67 class dustproof and waterproof

Support level 6 dustproof and level 7 waterproofing, can effectively prevent sweat, rain droplets splash and dust accumulation damage to components, easily deal with the complex outdoor environment, which you can play without any disturb

### 10 hours long battery life

Equipped with a 2000mAh high-capacity battery, it can play music for up to 10 hours when fully charged. Large battery, long battery life, make music accompany longer

### one key for calling

Built-in high-sensitivity and high-signal-to-noise ratio microphone, integrated echo cancellation technology, to ensure transparent and clear calls, so that every call is like face-to-face communication.

### Dynamic sound

Using rare earth dual magnetic horns, Canadian long-fiber diaphragm and passive passive radiator, small size and large energy.

### True wireless stereo interconnection

Supports true wireless stereo interconnection function. Two speakers can be interconnected and combined into a wireless stereo speaker to realize the stereo effect of left and right channel playback, and the music effect is more shocking.
